SUBJECT: Approval of the Recommendation to Improve Printing Options in the University Union

The 2016-17 University Union Advisory Board (UUAB) reviewed the proposal to improve printing options in the University Union (UU) brought before UUAB by Natalie Montoya and Kate Granlund. UUAB sees a need for updated printing options in the UU due to the high usage to the two printers that are currently available for usage in the UU. In the discussion, UUAB agrees that there are a few options to improving the placement of the printers as well as researching options to upgrade printers.

UUAB recommends the research of the options and implementation as soon as possible.
