**SUBJECT: University Union Advisory Board Recommendation on University Union Space**

---

In February 2017, the University Union Advisory Board (UUAB) started discussions on the possibility of relocating the Rose Float office to the Solar Decathlon House. With the potential move of the Rose Float program, the UUAB discussed renovating the space to satisfy the needs of a larger cross section of Cal Poly students. The UUAB first debated the intention and purpose of this space and agreed that there was a significant need for student space in the University Union and the campus in general. During the discussion, student members of the UUAB voiced that this location could be used as a dedicated space for the Cross Cultural Centers.

On March 2, 2017, the UUAB unanimously voted to recommend ASI collaborate with the Dean of Students staff. The goal of the collaboration is to identify if the current Rose Float location can be utilized as a space for the Cross Cultural Centers. The recommendation included the formation of an advisory council comprised of students and staff, from both ASI and the Dean of Student's office. The UUAB requests that ASI staff report progress and results of this project on a regular basis.
