      ii. Multiple students spoke in regards to the offensive behavior against people of color and agreed that Cal Poly must change to be made a more inclusive campus. Students do not feel safe and they feel unwelcome. This was more
than just one incident or one group. It is not just Greek Life but the campus as a whole. One student stated that we cannot let administration forget about this issue, continue to fight what you believe in. One believed that Cal Poly has failed at teaching students about tolerance. They need to educate students about white privilege and tell students that we accept them. Some students commended Student Government and administration on understanding their role and how difficult it is to be an ally when you are personally attacked trying to be an ally. Students urged everyone to take action and to show love and respect for fellow community members.

Many were surprised with SWAT teams, K9 units, officers on the roof, etc. This year he is taking a proactive role by informing all of the campus on what to expect and that it will be similar to last year and to expect the unexpected. i. **Motion #7 (Collins/Wetzel) “Move to approve Endorsement #18-04: AB-1961 Postsecondary Education: Student Housing Meal Plans.”**

ii. Mitchell stated that Assembly Bill 1961 would prohibit California’s public institutions that receive state funds for student financial assistance from requiring a student to have a campus meal plan in order to live in institutionally operated housing. In addition, AB 1961 would prevent California institutions that receive state funds for student financial assistance from listing their housing and meal plans jointly. He acknowledged that after speaking with Lorlie Leetham and Mr. Banfield, their feeling is that it could affect long term construction plans and potentially could cause food insecurity.

iii. Some members felt it was important to offer an option to students so they wouldn’t be forced to spend plus dollars on items they don’t need or will not eat. Others stated that it could be detrimental to their diet and they would eat unhealthy meals without a meal plan. It was stated that housing does not provide a suitable kitchen for students to cook in their rooms and without the availability of cars for freshmen, the option to purchase meals to cook is limited. Others stated that it is important for students to have a meal plan for the social aspect of meeting other students.

He spoke of the three acts of the Collective Impact Model starting at the ground floor with climate, curriculum, recruitment & retention. Much work needs to be done and “enough is enough.” He stated that Cal Poly is not a racist institution. Students expressed their concerns and disappointment on current campus climate. It is not about one event; it was the tipping point.

iv. He stated that he was not prepared to discuss the Cal Poly Opportunity Grant and Fee. He heard loud and clear that there are areas in the proposal that people did not like. Review of the comments and concerns will continue.

v. He stated that he likes the idea of AB 1961 Postsecondary Education: Student Housing and Meal Plans, however the core issue is that there is not
enough financial aid to provide to students in need. He stated that Cal Poly Corporation contributes extra food via a voucher program.

vi. President Armstrong spoke about the state budget and if the Governor does not approve the CSU funding, there will be a $61 million shortfall. He is optimistic that the CSU will secure funding rather than increase tuition.

vii. Question was raised about why the United Sorority & Fraternity Council (USFC) was not suspended. Kathleen McMahon stated that the USFC is currently not high level problematic. She stated that Greek Life needs a “pause to reset.” She has confidence that the organizations will work on values and a “better Greek Life”, and will come back as a stronger community.

The Academic Senate acknowledges that this is beyond one incident and it is painfully clear that much work must be done to realize a just, fair and inclusive environment where all cannot just achieve, but grow and thrive. The faculty members acknowledge the privilege and power that they hold on our campus. They can use that influence to support our students and our colleagues toward a more just, fair and inclusive environment. They will commit to urging and supporting our campus leaders to take the actions that must be taken to make a meaningful difference.
